DecoPanel Range

Traditional Patterns

The DecoPanel Range includes a large range of Traditional Designs as shown.

As well as decorative panels made to size in different finishes (Powder Coat, Anodised, Raw Aluminium or Steel, Corten Steel, Polished or Plated) this range is becoming widely used for Ornate Grilles in (HVAC) Heating, Ventilation and Air Conditioning applications.

Previously HVAC grilles were limited to standard stock items with limited styles and sizes, manufactured in plastic or metal.

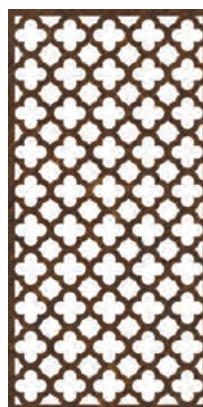

The DecoPanel range provides design customisation and versatility for any application and installation requirement.
